

LVIV POLYTECHNIC NATIONAL UNIVERSITY

Lviv Polytechnic National University is one of the oldest and largest technical universities in Central and Eastern Europe, with origins dating back to 1816. The university provides education and conducts research across engineering, environmental sciences, information technology, architecture, management, and humanities, with a strong focus on sustainability, innovation, and digital transformation. It maintains extensive international cooperation and promotes practice-oriented learning to prepare professionals for modern industry, environmental safety, and sustainable development sectors.

Associate Prof. Mariia Ruda,

Department of Ecological Safety and Nature Protection Activity,
Project Manager

WE OFFER

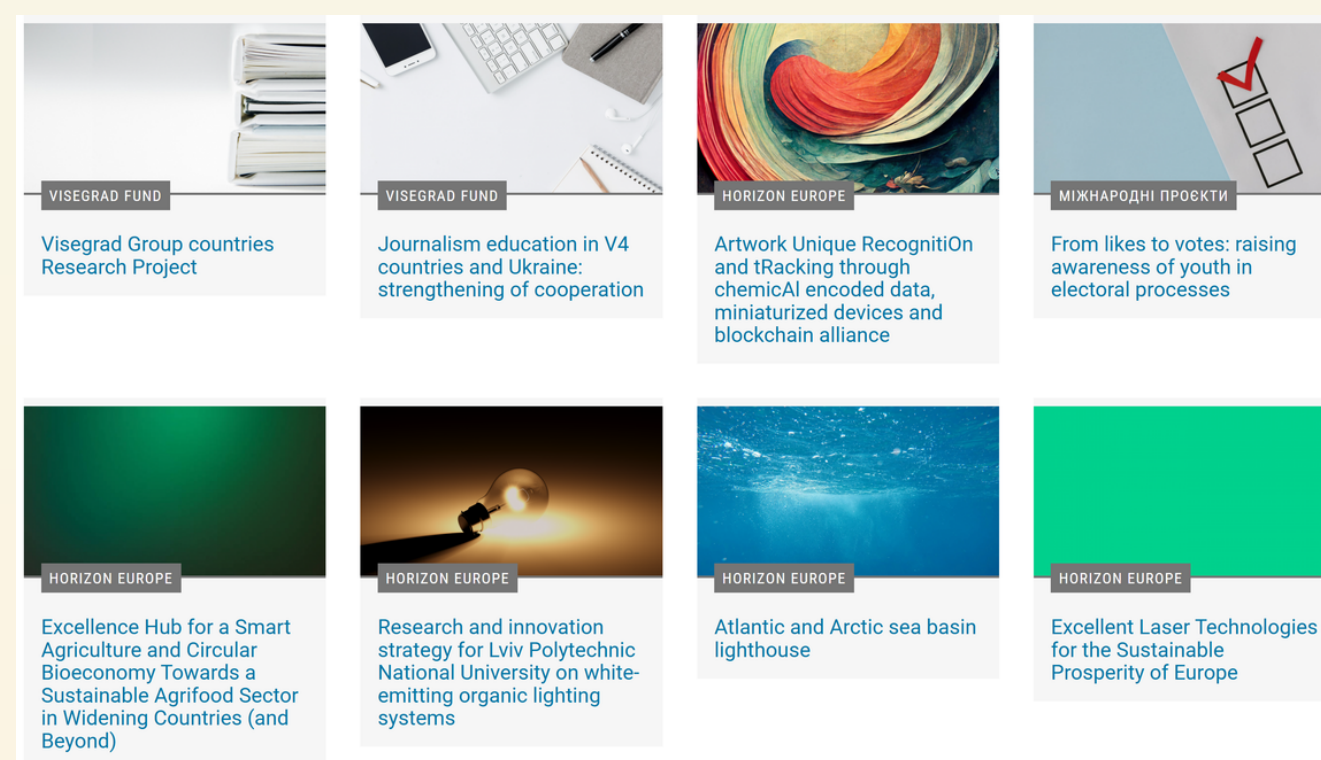

- Strong expertise in higher education focused on sustainable development and environmental safety
- Emphasis on applied scientific research and field-based learning using real-world case studies
- Implementation of dual and practice-oriented study programs
- Organization of international summer schools, mobility programs, and academic exchanges

WE ARE LOOKING FOR

- Are committed to sustainability transformation, green innovation, and climate-resilient development
- Seek reliable collaboration for student and staff exchange programmes
- Are engaged in joint research initiatives and practice-based collaborative projects
- Are interested in co-developing educational modules and micro-credentials on green skills and sustainable competencies
- Support youth empowerment and contribute to strengthening community resilience in local and international contexts

UNIQUE EXPERTISE & INITIATIVES

NETWORKING FOCUSES

We seek universities and partners for joint teaching, mobility, and sustainability-oriented research and practice initiatives.
