ZHYTOMYR POLYTECHNIC STATE UNIVERSITY

Zhytomyr Polytechnic State University (ZPSU) is a higher educational institution in Ukraine of the fourth accreditation level founded in 1960. The University is interacting with a majority of national and international institutions in the field of science, research, and international cooperation having many productive years of experience in educational and scientific activities with foreign educational institutions in the field of Ecology, Information Technologies and Computer Sciences, Engineering, Mechatronics and Industrial Technologies, Economics, Management, Public Administration, Social Sciences and Humanities.

WE OFFER

- Strong expertise in environmental protection, sustainability, and climate resilience research, including assessment of military and industrial impacts on ecosystems and biodiversity
- Access to war affected areas for ecosystem and biodiversity research
- Expertise in EU-funded project writing, coordination and management
- Applied research and consultancy in sustainable development, circular economy, waste management, and regional environmental planning
- Advanced digital educational tools, such as the "Digital University"

WE ARE LOOKING FOR

- Research and academic partners for joint projects in environmental protection, ecosystem restoration, climate change adaptation, and circular economy
- Universities, research institutes, and NGOs interested in cooperation on sustainability education, green transition, and post-war ecological reconstruction
- Partnerships for Erasmus+ KA1/KA2, Horizon Europe, DAAD initiatives and other collaborations.
- Organizations offering expertise or equipment transfer for applied environmental and climate-related research

UNIQUE EXPERTISE & INITIATIVES

Science Park: space for digital and technical solutions
